Tangerang, Banten, Indonesia

Physics undergraduate with a strong focus on Computational Physics and Data Analysis. I combine analytical rigor with technical proficiency in Python, Machine Learning, and Deep Learning honed through the Asah by Dicoding program. I am eager to apply these skills to model physical systems and solve complex data problems. Open to collaboration and new opportunities in Data Science and AI.

Education Level

IPB University - Indonesia
Bachelor of Physics, 3.26/4.00

Aug 2023 - Aug 2027 (Expected)

Organizational Experience

POSF (Physics Sports and Arts Festival) 2025 - Bogor Jan 2025 - Feb 2025
Chief Executive

An annual departmental event designed to facilitate student talents in sports and arts. The festival features various competitions and performances aimed at fostering creativity, sportsmanship, and strengthening the bond among Physics students.

- Spearheaded a committee of 70 members, providing strategic direction and oversight to ensure cohesive teamwork across all divisions.
- Established strategic communication with lecturers, faculty staff, and external stakeholders to secure permits and align event objectives with departmental goals.
- Directed the end-to-end execution of the Opening and Closing ceremonies, ensuring high standards of protocol and audience engagement.
- Oversaw the scheduling and logistics for all sports matches and art competitions, while supervising financial planning to ensure efficient budget allocation.

BEM FMIPA (Student Executive Board) - Bogor Jan 2025 - Dec 2025
Staff Member of the Sports Department

- Facilitated the development of student athletes and coordinated facult contingents for university-level championships
- Organized internal sports competitions and leagues to foster sportsmanship and strengthen bonds among FMIPA students.
- Managed the maintenance and scheduling of faculty sports facilities and equipment.
- Collaborated with department-level student associations to synergize sports programs and talent scouting

SPIRIT (Sport Competition and Art Festival on MIPA Faculty) 2025 - Bogor Aug 2025 - Oct 2025
Vice Chief Executive

he largest annual sports and arts olympiad at the Faculty of Mathematics and Natural Sciences (FMIPA). The event unites students from all science departments through competitive sports and artistic performances to foster solidarity and showcase exceptional student talents.

- Collaborated closely with the Chief Executive to oversee strategic planning and execution, serving as a primary decision-maker in the Chief's absence.
- Monitored the progress of all divisions, identifying potential bottlenecks and implementing tactical solutions to ensure the project remained on schedule.
- Managed internal team dynamics and conflict resolution, fostering a cohesive and productive environment for the committee members.
- Supervised the operational flow during the event, ensuring seamless coordination between logistics, competitions, and ceremonial activities.

Projects, Certifications, & Skills

- **Projects** 🟢 (2025): Customer Segmentation for Online Retail | Capstone from Dicoding
- **Projects** 🟢 (2026): AI Food Supply Chain Intelligence (Agriflow) | Top 100 JuaraVibeCoding from Google
- **Projects** 🟢 (2026): AI Material Verification Intelligence (MatVerify) | Hackathon from Microsoft
- **Projects** 🟢 (2026): Desa Gongseng Village Digital Portal | KKNT IPB University (2026)
- **Soft Skills** (2026): Analytical Thinking, Team Leadership, Project Management, Event Production, Financial Planning
- **Hard Skills** (2026): Python (NumPy, Pandas, Matplotlib, Scikit-Learn), SQL, Data Cleaning, Exploratory Data Analysis (EDA), RFM Analysis, Statistical Modeling, Machine Learning, TensorFlow, Neural Networks, Computer Vision, Circuit Analysis, IoT (ESP32 Microcontrollers), Sensor Integration.
- **Certifications** 🟢 (2025): Python Fundamentals, Machine Learning Fundamentals, Deep Learning Fundamentals, Machine Learning Operations (MLOps) Engineering | Dicoding Indonesia
